PROFILE SUMMARY

Mechanical Engineering graduate with hands-on project experience in Pneumatic Pick and Place Robot (4DOF) and material synthesis using Powder Metallurgy. Skilled in AutoCAD and CATIA V5 with CADD Centre certifications. Quick learner, eager to explore new technologies, and capable of applying strong problem-solving and teamwork skills in a professional environment.

EDUCATION

Jeppiaar Institute of Technology

Bachelor's Degree in Mechanical Engineering

June 2020 - May 2024

SKILLS

Technical Skills: AutoCAD | CATIA V5 | MS Office

Interpersonal Skills: Adaptability | Quick Learner | Analytical Thinking | Attention to detail

PROJECTS

PNEUMATIC PICK AND PLACE ROBOT (4DOF)

Project Description:

Developed a 4-DOF pneumatic pick and place robot capable of performing precise linear and rotational movements. The system used pneumatic actuators to automate object handling, showcasing improved accuracy and basic industrial automation concepts.

ALUMINIUM-SILICON NITRIDE COMPOSITE VIA POWDER METALLURGY

Project Description:

Synthesized an AA6063 aluminium alloy composite reinforced with Silicon Nitride using the Powder Metallurgy process. Conducted mechanical and microstructural tests to study hardness, density, and structural behavior. The project demonstrated how Si_3N_4 reinforcement enhances the overall performance of the composite material.

CERTIFICATION COURSES

- AutoCAD – Certified by CADD Centre
- CATIA V5 – Certified by CADD Centre

ADDITIONAL EXPERIENCE

Family-Owned Flower Shop

Karaikudi, Tamil Nadu | 2024-2025

Assisted in day-to-day operations of a family-run flower shop, managing customer interactions, basic billing, and shop maintenance. Gained hands-on experience in responsibility, time management, and customer handling.
